Supplementary forecast information release

Detailed July 2023 long-term fiscal projections

- 1 The OBR is releasing the information below following requests for further detail on the projections presented in our July 2023 *Fiscal risks and sustainability report (FRS)*. We will, as far as possible, meet any requests to release supplementary forecast information where this will improve the quality of public debate on the public finances. Our full release policy is available on our website.
- 2 We published our projections for fiscal aggregates in 10-year intervals in the 2023 *FRS*. We have received requests for the full series of non-interest spending, non-interest receipts and fiscal aggregates projections, and these are shown in the tables below. Excel versions of these tables have been added to the 2023 *FRS* page of our website.
